# THE PRESTIGE

Casement Window (40C)

Premium Series

## Barless View

Gives you the luxury of unblock view

## Highgraded ABS Lock Handle

Pull upward & Downward to lock and unlock

## MULTIPOINT LOCKING SYSTEM

- Better Security
- Better weather sealing performance
- Help reduce door warpage

## SAFETY GLASS

Double Layer Nonshattered Safety Glass (PVB: USA) ANSI Z97.1 CPSC 16 CFR 1201 - Cat 1

Laminated glass is formed by permanently bonding an interlayer between two pieces of glass.

- ✓ Filter more than 99% of UV rays, Controlling visible light radiation & reducing heat build-up & thermal stress
- ✓ Reduce the transmission of unwanted sound into building environment and highway
- ✓ 50% of worldwide architectural & safety security glazing using **Saflex**

**HIGH QUALITY POWDER COATING FRAME (OUTDOOR)**  
Paint by Dupont or Jotun

**HEAVY DUTY STAINLESS STEEL BAR HINGE**  
Smooth Gliding System

Fully Custom Made . Variety choice of Frame & Glass Colors . 2 Years Warranty.

- Surface Finishes : Glossy Polish / Matt
- Material : SUS304 Stainless Steel
- Function : Pivot Door
- Glass : 6.38mm - 8.38mm Double Layer Laminated Glass

## PRODUCT FEATURE:-

- ✓ Stronger Aluminum Frame Profile
- ✓ Safety Multipoint Lock
- ✓ Non-Shattered Laminated Glass
- ✓ Better Security
- ✓ Better weather sealing performance
- ✓ Help reduce door warpage

# TOP HUNG WINDOW

- ✓ Stronger Aluminum Frame Profile
- ✓ Full S/Steel Accessories
- ✓ Multipoint Lock System
- ✓ Non-Shattered Laminated Glass

## PRODUCT FEATURE:-

- ✓ Aluminum Frame c/w
- ✓ Water/Rust Proof with Center Bar
- ✓ Multipoint Lock System
- ✓ Non-Shattered Laminated Glass

# THE SLIDING WINDOW

## PRODUCT FEATURE:-

- ✓ Smooth Gliding System
- ✓ Seamless Embedded Handle
- ✓ Single Point Lock System
- ✓ Non-Shattered Laminated Glass

## Heavy Duty Roller System

1. In the bottom part of the door, a carriage mounted on needle bearings slides in the threshold section.
2. The guiding threshold section is designed for dis-mantling-free cleaning and maintenance.
3. In the top part of the door, a hinge fitted with guiding rollers slides in the rail section.

## DOUBLE LAYER LAMINATED GLASS FACTS

### Safety & Standards

- RELIANCE HOME** Glass is safety glazing material, conforming to the requirements of
- CPSC 16FR 1201 Category I Performance
  - CPSC 16FR 1201 Category II Performance criteria
  - Underwriters Laboratories' UL972 Standard for Security Glazing
  - Class 1 of the ASTM International's F1233 Security Glazing Test Standard.

### Impact Performance

**RELIANCE HOME** laminated safety glass will resist penetration and will absorb the energy of the impact. The glass will remain intact when broken, with the glass fragments remaining firmly bonded to the interlayer, thus minimising the risk of injuries from sharp edges and falling glass.

### Sound Reduction

The viscoelastic properties of the SAFLEX PVB Interlayer **RELIANCE HOME** used provide a dampening effect on the transmission of sound, thus reducing unwanted noise.

### Security

If broken, laminated safety glass will remain intact in its frame and will continue to safeguard the building until the glass is replaced. Due to the tough PVB interlayer used, it will continue to provide protection and resistance to entry after the glazing is broken.

### UV Control

The UV absorbing additive in the Saflex PVB interlayer used by **RELIANCE HOME** can screen out almost all of the sun's damaging UV rays, thus providing protection against discolouration and damage to fabrics, furniture, wall coverings, furnishings, artworks, etc.

Laminated glass is formed by permanently bonding an interlayer between two pieces of glass.

### Benefits of Laminated Glass

#### Safety

- Meets all the national safety glazing standards (ANSI Z97.1CPSC 16 CFR 1201 – Cat II)
- Resist penetration, won't shatter into dangerous fragment

#### Sound

- Typical STC (Sound Transmission Class) ratings between 34 to 40\*
- Can reduce perceived noise by up to 50% Typical STC (Sound Transmission Class)

#### Security

Standard LAG (1/4" with 0.060" thickness) provides a significant improvement in resistance to attack from a variety of hand held weapons in: Rock, Hammer, Pry bar, Brick, Chisel, Axe, etc.

#### Solar

Screens out 99% of harmful & damaging UV rays up to 380 nm (= SPF 50+) Protects delicate plants, fabrics, carpets, and furniture from fading

Solar Data	Test method	Clear Glass	Visible Light (D65)	Solar
Transmission	ISO 9050/EN410/ NFRC 300	2 x 3.0 mm	88%	71%
Reflection	ISO 9050/EN410/NFRC 300	2 x 3.0 mm	8%	7%
Absorption	ISO 9050/EN410	2 x 3.0 mm	4%	22%
Solar Heat Gain Coefficient (SHGC)	NFRC 300	2 x 3.0 mm	0.80	
Light to Solar Gain (LSG)		2 x 3.0 mm	1.10	
UV Blocking	Wavelength Damage Weighted	2 x 3.0 mm	300 – 380 300 – 400	> 99% > 96%
