What you need to know when you choose a window or door?

Windows and doors play a significant role in key areas of home construction, alteration and renovation. For example, they have an impact on the design, look and character of a home, its functionality, the lifestyle it offers, energy efficiency and comfort (heating and cooling) and noise penetration. Windows and doors form a considerable investment as part of the overall value of a home.

💡 When choosing windows, major areas of consideration should be:

- Appearance of the home both internally and externally.
- Double Layer PVB Laminated Glass to ensure highest security and deduction of noise penetration.
- Premium quality of powder coating frame for higher sustainability of outdoor exposure.
- Lifestyle and functionality.
- Ventilation and window positioning.
- Privacy (day and night).
- Light and vista.
- Space.
