Reliance Home provides every detail of your home construction process. Our goal is to provide a safe, hygienic home at the most affordable price.

With its diversity range of product from shower screen aluminium door, windows to a full collection of kitchen cabinets and other cabinetry work, Reliance committed herself to lead the lifestyle in this industry.

## COMPANY OVERVIEW

Reliance Metal is the leading force in Malaysia Shower Screen and Aluminium Door Industry. Founded in 2000, Reliance has grown to be a dominant brand within the premium bathroom sector and Aluminium Door sector.

Reliance were exclusively an aluminium door manufacturer when the company was founded, but their portfolio has grown, to now offer a complete range of shower door products, Aluminium Doors, Windows, Kitchen Cabinets and wardrobe, that offer first and foremost quality, balanced with unrivalled design, style and innovation. The current product offering comprises of distinct product collections:

- Shower Screen
- Aluminium Door
- Aluminium Window
- Tempered Glass Door
- Kitchen Cabinet
- Wardrobe

Reliance brand is a formidable force within the architecture industry; additionally consumer awareness is generated through securing consistency in Product Quality and Customer Service, certified by ISO 9001:2008 Quality Management System. Reliance Products come with two years warranty and after sales service.

Reliance Kitchen Sdn Bhd, one of the subsidiaries, produces Kitchen and wardrobe cabinets to provide more interior solution to our customers.

The company primarily focused is to develop a one stop solution centre for our customers with creative and innovative solutions provided by our company.

### Solids Acrylic

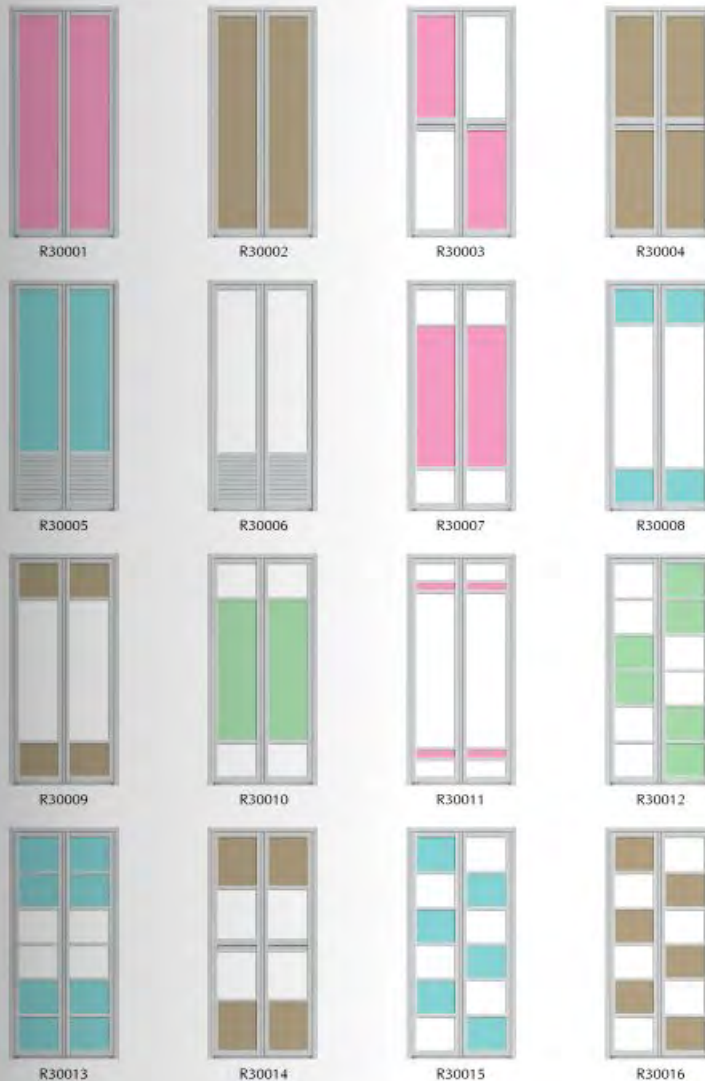

**Reliance** offers wide range of Acrylic color to your favorite choice. The reasons for choosing fine acrylic over glass or wood are persuasive: clean lines, more impact resistant and insulates better than glass. Its glossy surfaces and design versatility combined with an exceptional clarity are just a few of the advantages.

MULTIFOLDING DOOR

You deserve a bigger space

## Pd Door

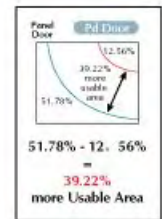

## Pd DOOR

### Pd Door

### Panel Door

The smallest swing area of only 12.56% that of conventional swing door. Swing Capacity up to 180 Degree.

Users will benefit from a sizable amount of 39% additional usable space for other purposes.

Despite the complications of the system as it may seem, the operation is amazingly easy and user friendly. Slide and swing.

PSB tested to last an average 100,000 cycles which is equivalent to a life spend of 15 years.

Pd door offers clear door access as no unsightly bottom rail is required. With no barrier at the bottom, safety and accessibility is greatly enhanced.

### THE WALK IN

### THE WALK IN

MELAMINE | The Walk In Series

## Decorative Glass

These resins are used to outline the areas to be coloured, are available in different colours and finishes and make any design more attractive. The most commonly used colours are black, which adapts well to glass and designs due to its versatility, silver and gold which, as they have a more liquid texture, provide finer lines and therefore smooth out the outlining effect of the design. The transparent outlining bead has a similar finish to stroked designs but with the advantage of being able to colour the inside of the design, which looks really quite wonderful on frosted glass.

### Glass Line Color Choice

Black

Crystal Clear

Gold

The Colours from our product will not fade and change colour. All raw materials come from UK. The quality of the decorative glass is exceeding normal standards that we provide a 10 Year Limited Warranty on the glass design. The Main Features are listed as of Below:

- Non Fading Colour
- Heat Resistance
- Water Resistance
- Weather Resistance for countries with 4 seasons
- Artbeaces are simply unique
