

# AutoWave

*Wave-to-Open*

## The Facts Automatic Door

### 1. Touchless Operation for Maximum Hygiene

- Simply wave your hand in front of the sensor to open the door, reducing contact and preventing the spread of germs and bacteria.

### 2. Smart Motion Detection Technology

- Equipped with an advanced infrared or microwave sensor that accurately detects hand motion, ensuring smooth and responsive operation.

### 3. Fast and Quiet Sliding Mechanism

- High-performance motorized system provides seamless, quiet, and energy-efficient door movement for a comfortable user experience.

### 4. Adjustable Sensor Range & Sensitivity

- Customize the detection distance to suit your environment, making it ideal for homes, offices, hospitals, restaurants, and other high-traffic areas.

### 5. Safety and Obstruction Detection

- Built-in safety sensors prevent the door from closing if an object or person is detected in its path, ensuring user protection.

### 6. Sleek and Modern Design

- Available in various finishes and glass panel options to complement any interior aesthetic while maintaining a minimalist, high-tech look.

### 7. Energy-Efficient & Smart Integration

- Designed to minimize energy consumption and compatible with smart home or access control systems for enhanced security and automation.

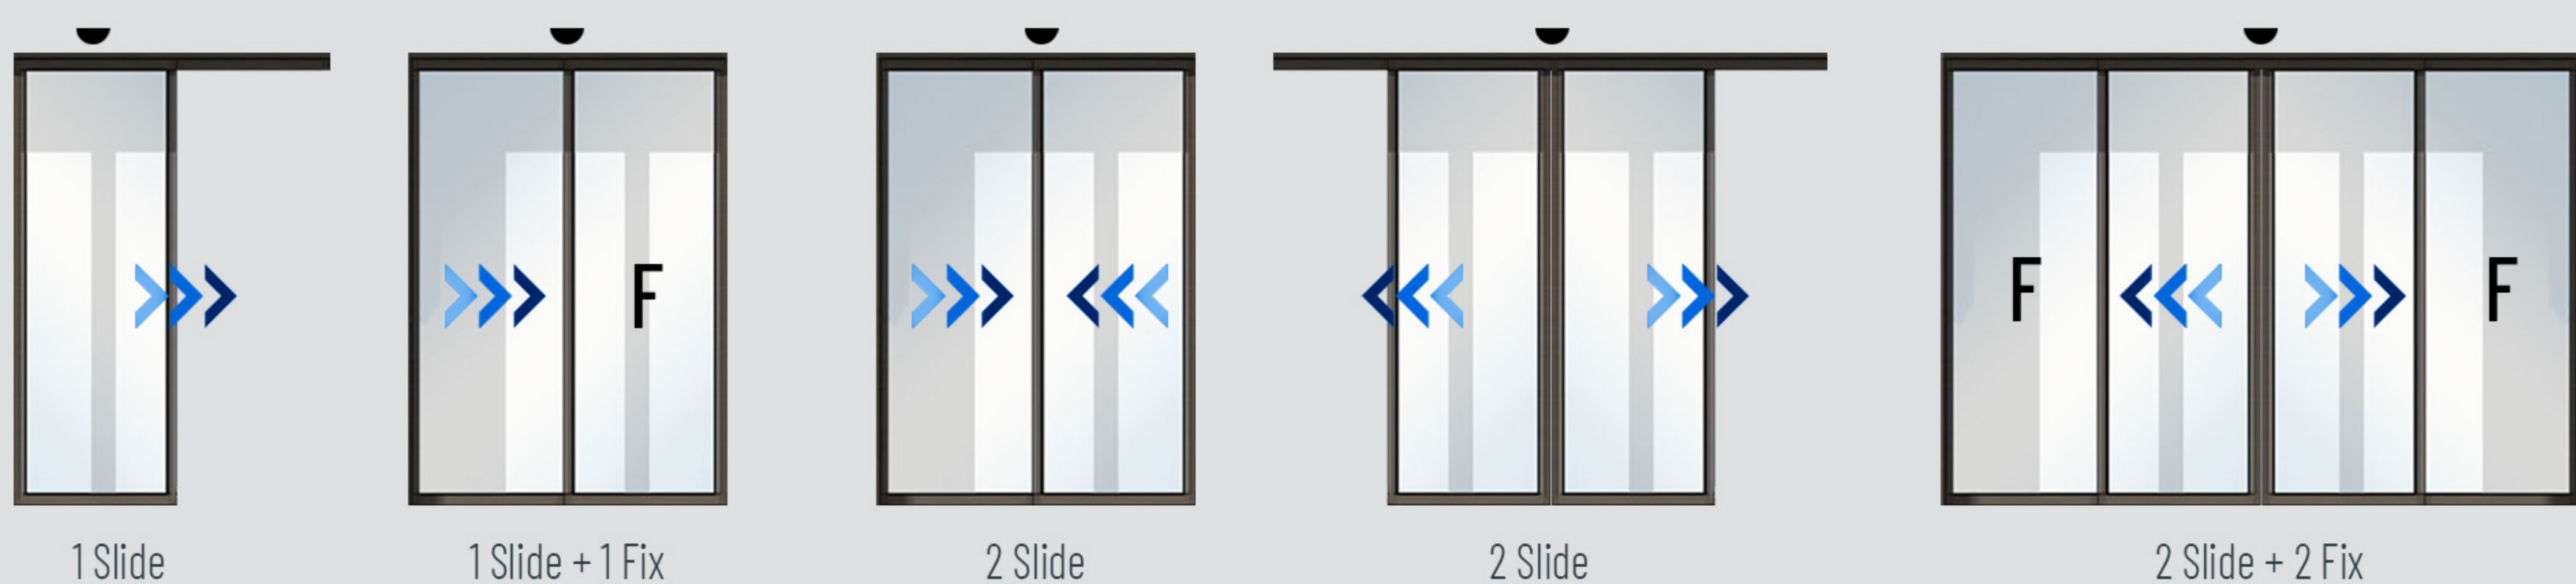

### 8. Easy Installation & Low Maintenance

- Hassle-free setup with a durable, long-lasting mechanism that requires minimal maintenance, making it a cost-effective solution.
